

Leah Wynn

678.512.9660 | 328 Eleanor St. Atlanta, Ga 30317

Objective

Seeking employment in web development position where I can grow my current skills and will expose me to new experiences and techniques.

Experience

STUDENT, TECH TALENT SOUTH, FULL TIME CODE EMERSION CLASS – JANUARY 2017 - MARCH 2017

In this class I worked on various projects such as blogs, e-commerce sites, social media, location and weather apps. Using Ruby on Rails as a framework for building, we also incorporated HTML, CSS, JavaScript, and JQuery into our apps to create a more dynamic user experience.

STUDENT, GIRL DEVELOP IT, INTRODUCTION TO RUBY – JULY 2016 - NOVEMBER 2016

This was an introduction course to the Ruby language. We met once a week and learned the fundamentals of the Ruby language as well as basic Terminal commands. We wrote terminal programs in Ruby.

SERVER, HOME GROWN, ATLANTA, GA – 2015-2017

At this job I waited on very high volumes of guests, taking orders and delivering food.

Some key skills gained from this job would be:

- Staying organized, level-headed, and focused in a fast paced environment.
- Being kind to people who are not always kind to you.
- Communication within a team.

Education

Kennesaw State University, Kennesaw, Ga – Economics, 2009 - 2012

Skills

I am extremely passionate about learning code. I am self motivated, deal well with frustration and constructive criticism, and work very hard. Years of experience in the service industry has adapted me to work well with others. I handle stressful situations with ease while still moving quickly. Coding is something I get excited about doing when I get home from work and I would love an opportunity to advance my skills in an environment that allows me to combine my passion and my need to provide for my family.
